

# THE AIR POLLUTION BUSTERS

Meet the heroes and heroines!

Daisy Driveless

Will.U.Walkmore

## The heroine - Daisy Driveless

Daisy Driveless knows that driving less is better for everyone. She is clever and wants you to help her bust the bad air. Help her to see how the air quality gets better on her Pollution Patrol machine when people make fewer car journeys.

## The hero - Will.U.Walkmore

Will.U.Walkmore knows it is healthy to walk as much as you can. He is clever and wants you to help him bust the bad air. Help him collect bad air into his Pollution Patrol machine by walking everywhere!

## The hero and heroine helpers - helping Will.U.Walkmore and Daisy Driveless bust bad air

'**Beaty**' loves clean air. She will love you too when you tell people about the ways they can make the air cleaner.

'**Fresho**' is a clean air cloud and she moves across the sky blowing bad air into Will.U.Walkmore's Pollution Patrol machine. She would like you to think about ways that you can keep the air clean.

'**In and Out**' help you breathe. They are lungs and the best of friends. Together they work hard using the air around them. They would like you to make sure that the air that they breathe in is clean because it makes them feel good.

'**Pedalo**' never stops! He seems to be everywhere pedalling on his tiny bike telling people about how he doesn't have an exhaust pipe, of which he is very proud. He dreams of owning a much bigger bike one day. He would like you to tell your friends about how great you think he is.

'**Sniffy**' is the nose and he knows it. You can tell he has such a good nose because when he's near a busy road he can smell the air pollution before anyone else can. He would like you to find out how much you can smell it when you are out and about.

Sniffy

the helpers hurray!

## And don't forget the air polluters!

### Nasty NOx

Nasty NOx sends out horrible gas (NO<sub>2</sub>) from his car through the exhaust pipes on his head. He doesn't seem to worry about where it goes as long as it's out there polluting the air. His NO<sub>2</sub> gas even makes him cough as well as all the other people around him.

### Peril Particulate

Peril Particulate is a very unhealthy fine dust that gets inside people's lungs. She is found in the exhaust pipe of Nasty NOx's diesel car and then when she gets out she spreads her tiny nasty PM<sub>10</sub> dust particles everywhere.

Nasty NOx

boo!  
hiss!

yuk!  
boo!

Peril Particulate
