

# Sheffield City Council - Highway Development and Adoptions

## Information Sheet 1 Introduction to Highway Development and Adoptions

Sheffield City Council is keen to welcome and assist developers, particularly where this will lead to the creation of new jobs for local people and benefit the local economy.

To assist developers through the planning process the Council has published a series of "Information Sheets" to provide you with advice. They offer highway advice to help you design your development, and may save you time and money by speeding up the planning application process.

Some of the "Information Sheets" provide you with the advice itself; others tell you where and how further guidance can be sought.

Current "Information Sheets" offer guidance on:-

- Transport Assessments and Travel Plans
- Car Parking Guidelines
- Bicycle Parking Guidelines
- Motorcycle Parking Guidelines
- Construction of New Roads and Footpaths for Adoption
- Information and Drawing Requirements for Section 38 Agreements
- Commercial Advertising Proposals on or Adjacent to the Public Highway.

If you have any particular themes you would like to see covered please get in touch.

### Contacts

#### Highway Development

Howard Smith 0114 273 6131	for schemes in the East of the City and in the City Centre
Helen Johnson 0114 273 6368	for schemes in the South of the City
