**Reception 2019/2020**

If you have been refused admission to your preferred school(s) it is because the school was oversubscribed (received more applications than places).

**Oversubscribed Schools that have refused admission on grounds of Infant Class Size legislation (Key Stage 1 Legislation)**

The law stipulates that there must not be more than 30 pupils to one qualified teacher in and infant class. The following schools were oversubscribed and refused admission to pupils because further admission would create classes of larger than 30.

Oversubscribed Schools that have refused admission on grounds of Prejudice

Some schools refuse admission on grounds of prejudice. This means that the admission of any additional child would prejudice the use of resources and efficient education at the school because it is full.

St Wilfrid’s Catholic

Oversubscribed School that have refused on Future Infant Class Size Prejudice

The law stipulates that there must not be more than 30 pupils to one qualified teacher in and infant class. The following schools were oversubscribed and refused admission to pupils because further admission would create classes of larger than 30 in future years because of the way the schools organise their classes (ie mix age groups).
