

## **Independent Inquiry into the Sheffield Street Trees Dispute**

**Independent Chair: Sir Mark Lowcock KCB**

**Progress Report April 2022**

The Chair and the inquiry team have held a number of private meetings with stakeholders this month. The Inquiry has also received a significant volume of new documentation and other evidence proactively submitted by a variety of stakeholders.

Four Inquiry team members have taken up their positions this month.

In March, we reported that the Inquiry was awaiting documentation from some important stakeholders, and that we hoped to see progress made on that during the course of April. While some new documentation has been made available, much is still outstanding. In some cases, the volume of this material is believed to be substantial, and the work of the Inquiry will be facilitated by its prompt receipt.

Anyone wishing to provide information can continue to send it to the Inquiry's main email address: [streettreesinquiry@weightmans.com](mailto:streettreesinquiry@weightmans.com).
