

Independent Inquiry into the Sheffield Street Trees Dispute

Independent Chair: Sir Mark Lowcock KCB

Progress Report June 2022

The Chair and the Inquiry team have continued to hold private meetings with stakeholders this month. The Inquiry has also continued to receive new documentation and other evidence proactively submitted by a variety of stakeholders.

In April and May, we reported that while some new documentation requested from key stakeholders had been made available, much was still outstanding. While this situation improved somewhat during May, document transfer slowed during June. The Inquiry continues to request important documentation from a range of stakeholders and hopes that the transfer of this information will regain pace in the coming weeks.

In May we also reported that there was one important stakeholder who was yet to submit any material to the Inquiry. That stakeholder has now provided significant documentation.

Anyone wishing to provide information can continue to send it to the Inquiry's main email address: streettreesinquiry@weightmans.com.
