

Independent Inquiry into the Sheffield Street Trees Dispute

Independent Chair: Sir Mark Lowcock KCB

Progress Report May 2022

The Chair and the Inquiry team have continued to hold private meetings with stakeholders this month. The Inquiry has also continued to receive new documentation and other evidence proactively submitted by a variety of stakeholders.

In April, we reported that while some new documentation requested from stakeholders had been made available, much was still outstanding. This situation has improved somewhat during May.

There is however one important stakeholder who is yet to submit material requested by the Inquiry. We expect to receive material from them by the date of the next report.

The Inquiry continues to request important documentation from a range of stakeholders and hopes that the transfer of this information will gain pace during June.

Anyone wishing to provide information can continue to send it to the Inquiry's main email address: streettreesinquiry@weightmans.com.
