East Ecclesfield

1. Safety

- Work in partnership with organisations to address residents' concerns about road safety, congestion and parking issues across the ward.
- Work with partners to address community safety concerns, tackling hotspots and promoting routes to report crime and anti-social behaviour

2. Children and Young People

- Work with service providers and local community organisations / youth groups to ensure young people have access to activities.
- Support organisations developing activities for children and encourage services to develop more recreational activities for young people that aim to deter them from anti-social behaviour.

3. Community Development

- Develop the capacity and support local community groups so that they are able to run a range of community activities or services across the ward, particularly those that help tackle social isolation, disadvantaged people and minority groups
- Support local environmental/parks groups in improving local green spaces and parks, including the tackling of off road vehicles across the area.
- Work in partnership with local groups and organisations to develop ways of tackling financial and digital inclusion

Stannington

1. Our Environment and Heritage

- Develop the capacity and support local community organisations that deliver activities to improve the environment
- Work with AMEY and the Council's Transport, Traffic and Parking Services to ensure that residents are kept well informed about the 'Streets Ahead' road improvement programme
- Our Ward has a rich heritage and we want to work with local people, groups, services and other partners to maintain, protect, and promote this heritage.
- Support our rural communities

2. Supporting Community Life

- Develop the capacity and support local community groups so that they are able to run a range of community activities or services across the ward, particularly those that help tackle social isolation. We particularly want to support areas of the Ward where there is currently a limited number of active community groups and organisations
- Provide opportunities for local organisations to promote themselves and their activities
- Work in partnership with local groups and organisations to develop ways of tackling financial and digital exclusion.
- Support activities and projects that engage with young people
- Support work that aims to improve the local parks and green space

3. Community Safety

- Tackle anti-social behaviour and issues of drug and alcohol abuse in identified 'hot-spot' areas across the ward including speeding, working with partners through the new Community Action Group

West Ecclesfield

1. Community development and engagement

- Develop the capacity and support local community groups so that they are able to run a range of community activities or services, especially in neighbourhoods of most need.
- Support groups who are developing ways of tackling Digital Inclusion, Social Isolation and Financial Advice.
- Work with partners to address community safety concerns, tackling hotspots and promoting routes to report crime and anti-social behaviour

2. Children and Young People

- Work with service providers and local community organisations / youth groups to ensure young people have access to activities and are supported in their options around education, training and work.
- Support organisations developing activities for children and encourage services to develop more recreational activities for young people that aim to deter them from anti-social behaviour.

3. Highways and Environmental

- Support work that aims to improve the local parks and deter dog fouling and anti- social behaviour.
- Look at ways to improve traffic calming and traffic enforcement.
- Continue to work in partnership with local organisations to tackle local area issues

Stocksbridge and Upper Don

1. Our Environment & Green Spaces

- Develop the capacity and support local community organisations that deliver activities to improve the environment, parks and green spaces
- Work with AMEY, local developers and the Council's Transport, Traffic and Parking Services to ensure that residents are kept well informed about the 'Streets Ahead' road improvement programme
- Support cleaner and greener communities by working to tackle climate change

2. All Our People
