

NOT BORN YESTERDAY

...take control guard against scams and rogue traders

Do you know someone who may be vulnerable to scams?
Look out for the following signs...

They receive a lot of junk mail, prize draws, competitions and lotteries

They are pestered by nuisance calls

They buy a lot of mail order goods and have sent off money and/or cheques

Rogue traders target people by cold calling, typically offering gardening and property repairs. Look out for the following signs...

Have you noticed any recent unexpected work that has been or is currently being undertaken?

Did the trader call at the property suggesting the work/repairs were needed?

Did the trader ask for payment up front, request cash and/or offer to take them to the bank?

If you have any suspicions, report it:
