

Attercliffe: Connectivity Participation and Placemaking

*'Making Attercliffe the place at the centre of
Sheffield's most exciting developments, not
the space in between them'*

Objectives

- Deliver a vibrant and attractive high street with specialist shops and eating places.
- Attract new residential and celebrate existing communities to live in the area. Attract visitors attending the nearby sport, leisure and educational facilities.
- Build on the centre's industrial heritage whilst offering a distinct and modern canal and riverside location
- Generate a positive image and gateway into and for the city.

Centre for Child Health Technology

- £20m project £8m LUF
- LUF via grant to Sheffield Children's Hospital
- October 2021 Memorandum of Understanding signed between SCC and Sheffield Children's NHS Trust
