SHEFFIELD CITY COUNCIL

Local Authority - Pollution Prevention and Control

Introduction

When to use this form

If your installation is for a period of not less than 12 months

- a) being mothballed¹, or
- b) temporarily operating (or is going to operate) at reduced capacity, below the threshold requiring a permit,

you can use this form to declare that this is the case and may be eligible for reduced annual subsistence charges. This is an alternative to surrendering your permit and having to make a new application if production increases or restarts.

Restrictions

Eligibility for reduced charges is dependent on your local authority regulator being satisfied that paragraphs a) or b) above are satisfied and on the circumstances set out in a) or b) not giving rise to a breach of conditions in the environmental permit resulting in emissions which the local authority considers to have a significant negative effect on human beings or the environment².

Next steps

When responding to this declaration, your local authority regulator may either

- i) write to you confirming reduced charges. In doing so it will explain what you have to do if circumstances change, and may also vary your permit to require you to provide information to them; or
- ii) ask you for more information which shows the basis of your declaration.

If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us at the local authority address given above if you need any advice on how to set out the information we need.

¹ ie Its activity will temporarily cease to be carried on but the equipment necessary to carry on that activity is maintained to ensure that operation may be restored at a future date

² Such as dust or odour emissions which would otherwise amount to a statutory nuisance or, in the case of a Part A(2) installation, a water pollution incident which falls within category 1 or 2 of the Environment Agency's Common Incident Classification Scheme (as summarised in Annex XXI of the General Guidance Manual

<http://www.defra.gov.uk/environment/ppc/localauth/pubs/guidance/manuals.htm> .
